# ACUTE, INTENSIVE AND EMERGENCY PSYCHIATRIC CARE SHORT COURSE

## WHY JOIN THE COURSE

The aims of the module are to enable practitioners in acute, intensive and emergency psychiatric care to apply and adapt their existing skills, helping them to develop their knowledge of assessment, formulation skills, differential diagnosis and management. The course will be grounded in clinical practice, and will be distinctive in both this and in its multi-professional delivery.

This four day course will be a credit bearing module, which will include assessments. Delegates will need to attend all four dates in order to satisfy attendance requirements. More information can be found here: [www.sgul.ac.uk/psychiatry](http://www.sgul.ac.uk/psychiatry)

## WHO SHOULD ATTEND

- Psychiatrists (envisaged those near the end of training)
