## Event theme

### THE MULTIDISCIPLINARY MANAGEMENT OF ACUTE DISTURBANCE

The National Association of Psychiatric Intensive Care and Low Secure Units (NAPICU) and The British Association for Psychopharmacology (BAP) developed a new joint guideline in 2018, the Joint BAP NAPICU evidence based guidelines for the clinical management of acute disturbance (de-escalation and rapid tranquillisation).

This 2 day event is follow-on to the highly successful launch event in 2018 which introduced the new guideline and clinical algorithm to guide treatment and comprises a wide range of speakers who are experts in its clinical, research and policy implications.

The meeting will be an excellent educational opportunity and will provide an essential update for those with an interest in treating acute disturbance in acute adult psychiatric, psychiatric intensive care, forensic and general hospital settings

“Assessing and managing acute disturbance in mental disorder needs a patient-centred multidisciplinary approach. This educational event and the guideline will support clinicians in determining optimal evidence-based interventions in this challenging clinical area. The event will look at some of the critical questions linked to managing acute disturbance effectively and safely. It is part of the ongoing collaboration between NAPICU and the BAP”.
