SPEAKERS

Mr Roland Dix

'Using Technology to improve safety and reduce Restrictive Interventions and Practices

Roland is a Consultant Nurse for Psychiatric Intensive Care and Secure Recovery and has been an Approved Clinician since 2012. He was awarded the RCN Fellowship in 2014. Roland is an Executive Committee member for NAPICU and is the founding Editor-in-Chief for the **International Journal of Psychiatric Intensive Care**. He has published extensively on issues of psychiatric intensive care, acute inpatient care and related subjects.

Dr Faith Ndebele

'How technology can change services – unlocking "new data"

Faith Ndebele is a consultant psychiatrist, working in the psychiatric intensive care unit of the Caludon Centre, a purpose-built inpatient facility run by Coventry and Warwickshire Partnership NHS Trust.

Dr Ndebele is also the medical lead for the acute service and the principal investigator for the Oxehealth research project.
