

Thursday 3rd December 2020 2pm – 4pm

PROGRAMME

2.00pm	-	2.05pm	Open & Welcome <i>Mr Andy Johnston</i>
2.05pm	-	2.50pm	<p>Caring for adolescents with acute and complex mental health needs in CAMH PICU: conceptualising and enabling nursing identity, task and intervention</p> <p>She will be presenting the findings from a multi-methods research study she conducted investigating nursing care, intervention and identity within CAMHS PICU settings. This work has resulted in the first published studies into the nature of mental health nursing within CAMHS PICU, nursing interventions that contribute to young people's recovery journey and the staff support needed to enable nurses to sustain the therapeutic tasks of their work.</p> <p><i>Celeste Foster</i></p>
2.50pm	-	3.05pm	Comfort Break
3.05pm	-	3.50pm	<p>"LIGATURE RECORD: Improved Capture Of Risk Information In CAMHS PICU Through Use Of A Mnemonic-Style Documentation Aid"</p> <p>A documentation tool is presented which has been demonstrated to improve the accuracy of recording of clinical risk information following inpatient ligature incidents in the CAMHS PICU setting. The LIGATURE RECORD tool provides a highly useable prompt for information capture of fourteen important data elements identified as relevant to MDT risk formulation.</p> <p><i>Dr Lucy Morley & Dr Neil Meggison</i></p>
3.50pm	-	4.00pm	Q&A Session
		4.00pm	CLOSE

SPEAKERS

Ms Celeste Foster

“Caring for adolescents with acute and complex mental health needs in CAMH PICU: conceptualising and enabling nursing identity, task and intervention”

Celeste is a senior adolescent mental health nurse, registered adolescent psychotherapist and academic who has been working in Child and Adolescent Mental Health, since 1995. Celeste is a senior lecturer in adolescent mental health at the University of Salford. As an early career researcher, she has published in the subjects of psychoanalytic approaches to working with adolescents and their professional networks in relation to self-harm, complex psychosomatic presentations and developmental trauma. She has led several multi-professional research studies investigating effective whole-school approaches to pupil emotional wellbeing, and effective interventions for adolescents with complex and severe mental health needs, including children with physical, neurodevelopmental and psychiatric comorbidities.

Dr Lucy Morley & Dr Neil Meggison

“LIGATURE RECORD: Improved Capture Of Risk Information In CAMHS PICU Through Use Of A Mnemonic-Style Documentation Aid”

Dr Lucy Morley BSc PhD MBBS MRCPsych is an inpatient consultant on a CAMHS PICU at Hopwood on Nottinghamshire. The PICU opened as a new build unit alongside a CAMHS ED and GAU provision in 2018. Dr Morley has worked as a CAMHS Consultant since 2016, for ten years with Looked After Children before transferring to the role of CAMHS inpatient consultant. Dr Morley has an interest in safeguarding and in the overlap between childhood adverse experiences (ACEs) and mental health in children and young people. Interested in social media @lucymorley1

Dr Neil Meggison BMBS BA MRCPsych is a Specialty Doctor in Psychiatry and has worked in the Adult and CAMHS PICU environments for the last 18 months. His practice is dedicated to the improvement of risk-management systems and he has led in the development of innovative solutions to patient safety problems in psychiatry. Dr Meggison graduated in Natural Sciences from the University of Cambridge in 2008 with a specialisation in pharmacology before completing medical training at the University of Nottingham in 2013. He has subsequently worked clinically and contributed to service development in the acute, PICU and secure hospital settings. Since completing Core Psychiatric Training and gaining membership of the Royal College of Psychiatrists in 2018, Dr Meggison has sought experience in a number of Associate Specialist and Specialty Doctor roles across the psychiatric subspecialties. He is due to commence Higher Training in Forensic Psychiatry in 2021.
